Dear FCC:

My mother -in-law is 95 and we use Tracfone as an emergency phone. She only got a \$12.41 Social Security adjustment and the increase in the Medicare premium will take a large amount of the adjustment. She, like many other elderly Americans, cannot afford any type of increase in anything.

Thank you.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
